## CHEMISTS' TRANSFERS.

**MESSRS. ORRIDGE & CO., 32 LUDGATE HILL, E.C.,**  
CHEMISTS' TRANSFER AGENTS.

May be consulted at their Offices on matters of SALE, PURCHASE, and VALUATION. Immediate attention given to Foreign Commissions.

The Business conducted by Messrs. ORRIDGE & Co. has been known as a Transfer Agency since the year 1846, and is well known to all the leading firms in the Trade. VENDORS have the advantage of obtaining an opinion on Value derived from extensive experience, and are in most cases enabled to avoid an infinity of trouble by making a selection from a list of applicants for purchase, with the view of submitting confidential particulars to those alone who are most likely to possess business qualifications and adequate means for investment. PURCHASERS who desire early information regarding eligible opportunities for entering business will greatly facilitate their object by describing clearly the class of connection they wish to obtain.

Particulars of any of the following will be sent free on application :—

1. LONDON, E.—Retail and Dispensing Business; very profitable; returns nearly £750; situate in main road; large double-fronted shop and good house, garden and greenhouse; price £650.

## TERMS.

Advertisements in this department must be paid for in advance. From this rule no deviation can be made. Insertions are charged at the rate of 1d. per word, provided the advertiser attaches his name and address, for each word of which he must also pay at the same rate; or, if he pays 1d. per word, his name and address will be registered and a figure attached to his advertisement. All correspondence referring to that figure must be addressed to "The Publisher of the CHEMIST AND DRUGGIST, 42 Cannon Street, E.C." and the figure must be distinctly endorsed upon the envelope. Letters will then be forwarded to their proper destination. A price is counted as one word, as e.g., £1. 10s. 6d.

Please write out your advertisement in this diagram, one word in each space. You will then see at a glance how much the cost will be—namely, 1d. per word, if your address is kept private; 1d. per word, if your name and address is attached.

**DEPOSIT OF MONEY.**—In order to ensure safety we offer the following system:—The purchaser of anything advertised in the Exchange Column may remit the amount to us. We acknowledge receipt to both parties by post cards, and only pay the money deposited on the advice of the remitter. Whether returned to him or paid to the seller, we charge a commission of 6d. on any transaction of £3 or less, or 1s. if above that amount.

# MANN'S PERFUMES.

The accompanying cut represents a facsimile of our Pound Bottle, containing 18 fluid ounces, with elongated and etched stopper for trying the odours. We have arranged our Perfumes into ranks according to popularity and demand; those having the most ready sale comprise the first rank, then, next in order, the second rank, then the third rank. This plan gives the Druggist at a glance a more comprehensive idea of our line, and also enables him to make his selection according to the general popularity of the odours. We would always advise a full line of all the perfumes kept in stock, as the second and third ranks contain many odours desired by persons of special tastes, and, while they are not generally of as ready sale as those of the first rank, yet they are always staple. The goods are all made of the same degree of strength, and are intended to be of equal desirability, yet some will take precedence in popular favour over others. We make only the finest quality of Perfumes, which are especially designed to meet the demand of the best drug trade throughout the world.

# MENTHOLINE.

*The Original  
Absolutely Pure  
Menthol Cone.*

## THE TRUE JAPANESE HEADACHE CURE."

Guaranteed to be only the finest Japanese Menthol, entirely free from oil, Whiter, Firmer, more Crystalline than any other brand, and absolutely pure, making it more valuable for all the purposes for which ordinary Menthol is used. Its hardness and solidity specially fits it for sale and use in hot climates, and also makes it the cheapest Cone to be used in any climate, as it lasts longer than any other Cone. This curious remedy, used in Japan for ages, instantly relieves and removes Nervous Headache, Toothache, Earache, Faceache, Faintness (from over crowded churches, theatres, &c.), Catarrh, or cold in the head, and many other nervous aches and pains; it also certainly relieves Neuralgia, Rheumatism, Sciatica, and other nervous affections; and has a tendency to produce refreshing sleep.

### USED BY SIMPLY RUBBING.

Taken internally it relieves Flatulence, Nausea, Colic, and other pains, and is good in cases of Sea-sickness.  
No other Remedy in the World so Valuable (costing more than Quinine), so Pure, and so very useful in so many ways, is sold for 1s. per box.

## METCALF'S COCA WINE

From Fresh Coca Leaves.

A PLEASANT TONIC AND INVIGORATOR.

Public Speakers, Singers, and Actors have found Wine of Coca (METCALF'S) to be a valuable tonic to the vocal cords, and also a sedative, allaying nervous fright without perceptible after-effect. It is agreeable to the taste, and can be prescribed for children or convalescents. Athletes, Pedestrians, Bicyclists, Tennis and Base Ball Players have found by practical experience that a steady course of Coca, taken both before dining and after any trial of strength or endurance, will impart energy to every movement, and prevent fatigue and waste from the system.

## ARTIFICIAL LIMBS

(MARKS' PATENTS),

WITH RUBBER HANDS AND FEET.

Thirty-three Years of the most extensive experience, with the most satisfactory results of any manufacturer in the world. The confidence of the public, popularity among the crippled, and flattering commendations from all parts of the world, attest the superiority of the Rubber Hand and Foot, which possess the quality of yielding to every essential angle of the natural, without the use of complicated hinges, joints, and contrivances, which only annoy and render expensive their daily use.

The accompanying cut represents a young man who lost both legs by a R.R. accident, one above the knee and the other 2 inches below. He is able to walk one-half mile in eight minutes without a cane or any assistance except his artificial limbs with rubber feet. He can perform a day's work without unusual fatigue, can go up and down stairs; in fact can do any of the ordinary of life without exhibiting his loss.

ARMS restore the appearance and assist greatly in the performance of labour. From our Copyrighted Formula artificial limbs are made and shipped to all parts of the world, without the presence of the patient with guaranteed success. Parties who live at a distance, or who would be inconvenienced by a journey to our place, can supply measurements on our formula and feel the assurance that they will receive our best attention. Thousands are thus treated in Canada, Mexico, Central and South America, and Europe.

## SANITARY SOAP POWDER.

This **MARVELLOUS CLEANSER** is the only Soap Powder used and recommended by the Medical Profession because of its harmlessness and extreme purity. Sold in tinfoil packets 1d. each, and in blue wrappers 2 for 1½d.; also 1, 2, 4, and 7 lb. bags, for family use, at 3d. per lb.

*The British Medical Journal*, Nov. 23, 1885, says:—"The Hydroleine preparations will soon come largely into use, and rank as general favourites. The Laundry Powder is especially valuable, and cannot fail to be fully appreciated; whilst the Disinfecting Powders and Preparations for cleaning brushes and sponges are most useful. We have been much pleased with the results of our examination, and have much pleasure in recommending a trial of Hydroleine."

*The London Medical Record*, Dec. 15, 1885, Edited by Dr. Ernest Hart, Chairman of the National Health Society.—"The New Hydroleine (Hydrated Soap Powder) is of considerable value for all cleansing purposes, and is well adapted for use in the Laundry. It dissolves readily, forming a solution which lathers freely. An analogous preparation is the Hydroleine Carbolyzed Soap Powder, which is sold at a very moderate price, and is a powerful disinfectant. There are other Powders, intended for cleansing and reviving carpets, and for washing sponges and brushes. We have tried them all, and have no hesitation in saying that they are most efficacious. These Hydroleine Compounds are thoroughly reliable, and will come speedily into general use."

### HYDROLEINE-Hydrated Soap Powder (Carbolyzed).

for Bottles of all Sizes and Shapes," with the additional security it affords, that the Cap can never be entirely unscrewed, consequently it cannot be lost. It is specially effective as a Sprinkler, while giving a more prompt and copious, yet economic, supply, through the improved action of the Cap. Such combined advantages, in an article of exquisite finish, have long been desired, and it is thus submitted for general approval, and its usefulness when tried will be appreciated by all.

Illustrations, Price Lists, &c., can be had on application, or through any Wholesale House in town or country. All Orders received direct will be promptly attended to.

## THE "TORSION" PATENT SPRINKLER.

The two designs, Nos. 18a and 19a, are those to which we direct special attention, as sizes being in general use; other sizes will follow promptly to meet all requirements, on which Caps with two or more holes will be introduced to meet the public taste. Particular attention is called to the latest improvement in our Patent Metallic Stopper, the "Torsion."

This New Stopper adheres to the design of the original patent, which has been universally acknowledged as an ornamental and inexpensive article for the Toilette, as possessing all the advantages of a "Permanent and Indestructible Stopper, suitable

### DR. REDWOOD'S ANALYTICAL DEPARTMENT,

17 BLOOMSBURY SQUARE, LONDON, W.C.

Having visited the cultivation grounds and distilleries of Messrs. JOHN JAKSON & CO., at Mitcham, devoted to the production of Lavender, Peppermint, and other essential Oils, and having submitted samples of the Lavender and Peppermint Oils prepared by this firm to a careful physical and chemical examination, I can bear testimony to the very complete arrangements, with all modern appliances, which are here provided for distilling essential Oils, and to the excellent quality of the Oils so distilled.

Mitcham has been renowned throughout this, and part of the previous, century for the successful cultivation of Peppermint, Lavender, and other medicinal plants, from which oils of superior quality have always been produced; but at no previous period have the means for obtaining products of the highest quality been so successfully carried out as they have been since the introduction of Messrs. JOHN JAKSON & CO.'S system.

### BINGLEY'S GINGER ALE

DR. ANDREW WILSON, F.R.S.E., Editor of "Health,"

In a Letter dated January 20th, 1886, says:—

"BINGLEY'S GINGER ALE is unsurpassed for delicacy of flavour, and for its high quality. As a substitute for Alcohol, taken along with food, and as a temperance drink, it has in my opinion no rival."

### NORTH.

ROTHERHAM, Jan. 2, 1886.

Your Teas are giving great satisfaction in this district. The London Broken Tea is of splendid value, and has won for itself a large consumption. It is only necessary to induce families to try these Teas to secure for them a permanent sale.

HUMPHREY DAVY.

CHESTERFIELD, Dec. 30, 1885.

I tried several Tea Agencies in succession, and was dissatisfied with the result, as I failed in each case to establish an increasing demand. Early in 1879 I was induced to take your Teas, and the following is, I believe, a correct statement of the quantities I sold during the first five years:—1879, 979 lbs.; 1880, 3,243 lbs.; 1881, 4,398 lbs.; 1882, 4,755 lbs.; 1883, 6,367 lbs. I have had a steadily increasing demand from the first, and am convinced that your Teas are better value for money than any wrapped Teas offered.

ALFRED LOWE.

YORK, Jan. 7, 1886.

Having been your Agent for some years, I think it only fair to say that the sale of your Teas and the satisfaction they have given to my numerous customers is highly gratifying; and, in my opinion, you place your Agents in a position that enables them to compete with anyone else in the Trade.

W. T. HEY.

### SOUTH.

SALISBURY, Jan. 1, 1886.

Since I have had the Agency for your Teas, which is about five years, the sale has been steadily increasing. My customers speak in the highest terms of the Teas, and I find that when a trial has been made a regular customer is the result.

JOHN ROWE.

FOWEY, CORNWALL,

Jan. 1, 1886.

I have always found a ready sale for your Teas, and they are much appreciated by all my customers. I sell double the quantity I did at first.

J. WELLINGTON.

HERNE HILL, S.E.

Jan. 6, 1886.

I accepted the Agency for this district about twelve months ago, since which time the sale has gone on steadily increasing. Some of my customers say that the London 2/- Tea is quite equal to what they have been procuring from their grocer at 2/6, 2/8, and 3/-.

JOHN MORTIBOY.

### EAST.

GREAT YARMOUTH, Dec. 31, 1885.

It is now above four years' since I commenced to sell your "London Teas," and I must confess that when I ordered the first half chest I did not expect to sell it, but am now pleased to be able to say that it sold without difficulty, and created a demand that has ever since been increasing, and has far exceeded my most sanguine expectations.

W. SHEPPARD POLL.

GRIMSEY, Dec. 30, 1885.

I have been a retailer of packet teas thirty-two years, but was never able to give my customers such good value for their money before as I have been since I accepted your Agency, upwards of four years ago.

I have never had the slightest complaint respecting your Teas, but customers are constantly saying they are the best Teas to be had in the town.

ENOCH PALMER.

WOODBIDGE (Population 4,525).

Jan. 1, 1886.

Since my introducing your Teas in March, 1883, I have sold ten times more than before. The average sale for 1884 and 1885 has been 2,557 lbs. per annum. I am daily receiving gratifying testimonials of the superior quality, blend, and flavour of the "London Teas."

EDWARD J. EATON.

### WEST.

BANGOR, December, 1885.

The sale of the Tower Teas with us, considering we do not keep sugar or groceries, has realised our most sanguine expectations, as our last order, over half a ton, will go very soon.

Before your Agency we had tried two others, and failed to sell 28 lbs. in a month.

HAMILTON & JONES.

PEMBROKE, Dec. 31, 1885.

I have much pleasure in bearing testimony to the superior quality of the Teas I have received from you during the five years I have been Agent. The increased sales year by year will be sufficient guarantee of the public appreciation of it. I consider it wonderful value, and of a uniform quality and flavour. I sell twelve chests for every one I used to do in the old style. R. ORMOND.

BISHOP'S CASTLE, Jan. 2, 1886.

I have found the "London Teas" sell very well and please every class of customers. My sales in two years have increased between 60 and 70 per cent., and are still advancing—and, as you are aware, I now order from you every fortnight.

GEO. STRAWSON.

Sole Consignees for the United Kingdom—H. POTHS &amp; CO., 4 Sugarloaf Court, Leadenhall Street.

Sold in Bottles—Retail Price, 2/ each; Wholesale, 19/ per dozen.

# LEUBE-ROSENTHAL'S IMPROVED MEAT SOLUTION,

Prepared by R. STUETZ, Chemist, Successor to Dr. MIRUS, Jena, Germany.

This carefully-prepared Meat Solution contains the real, stimulating, and nourishing constituents of the best quality of beef, freed of fat and sinews. Owing to its high degree of digestibility, it is of the greatest value to persons suffering from stomach and nervous complaints, to delicate children, convalescents, etc. It is at the same time exceedingly appetising, and totally devoid of that objectionable nauseous taste so common in most of the Meat Preparations.

It is warmly and solely recommended by Professor Leube. See "Sammlung Clinischer Vorträge" of R. Volkmann, in Dr. Wiel's "Tisch für Magenkranke," and in Professor Reclam's "Gesundheit" (Zeitschrift für Hygiene), No. 14, vii., 1882, under the title "Newest Nourishments." Professor Reclam also has had great success with it in cases of debility of persons of all ages. This Preparation has been for some time, and is still, in use at the German Hospital, Dalston.

# VEGETABLE BUTTER COLOURING

(OF OUR OWN MANUFACTURE),

For imparting to the Butter at all seasons of the year that rich cowslip tint which is such a desideratum to all producers. It is rapidly superseding the Danish and all other makes, being more efficient and cheaper; it does not crust on the bottles, as the case with the foreign preparations; is free from Aniline, and does not colour the Buttermilk. To Purchasers of Bulk it affords a considerable source of profit, and is well worth the attention of Druggists in the agricultural districts. Price **1/2** per lb.; **1/** in 2-gallon Bottles. Special Terms to large consumers.To meet the views of many of our friends, we have commenced to put this article up in bottles also, under the title and trade-mark of the "Silver Churn." It is very attractively got up, and will command a ready sale; the bottles contain more than either Danish or American, while the price to the retailer is lower than that of any other Butter Colouring in the Market. Price in Bottles, 6d. size, **4/** per doz.; **1/** size, **8/** per doz.; **2/** size, **16/** per doz. Less **10** per cent. discount.

A handsome Show Card, printed in colours, and suitable Counter Bills may be had on application.

Copy of Testimonial just received (May 18, 1886), from one of the largest Dairy interests in the country:—

"We have subjected your Silver Churn Butter Colouring to a protracted and severe trial, and it appears to us to be the very best article obtainable; the absence of any objectionable taste and smell, the beautiful straw colour imparted to the butter, as well as the very small quantity required, combining to render it both efficient and economical. We have found a teaspoonful sufficient for 24 quarts of cream at this season of the year. By continuing the manufacture of a quality equal to that you have supplied to us, you cannot fail to secure the good opinion and patronage of all users."

These large Iron Casks, similar to sketch, can be handled with equal facility to wooden barrels, and, owing to their strength and durability, can be used over and over again for an indefinite period. They are perfectly liquid tight, being tested at a very high air pressure, and, unlike wood, do not absorb any of the contents. They are all fitted with interchangeable screw bungs, and can also be fitted with screw plug in head, for draw-off tap.

They are specially adapted for all kinds of Chemical Products, Sulphuric Acid, Glycerine, Spirits, Oils, Turpentine, Petroleum, Benzoline, Varnishes, Tar, Naphtha, Mineral Extracts, and Inflammable Liquids of every description.

We are making them in three qualities, "Black Iron," "Lead Coated," and "Tinned."

# DESIDERATUM MIXER BRACHER'S PATENT

UNSOLICITED TESTIMONIALS IN FAVOUR OF THE "DESIDERATUM" MIXER (BRACHER'S PATENT).

GENTLEMEN,—Having for the past ten years been engaged in mixing quantities of Powders, I have been on the look out for a machine to do the work, but have been disappointed on three occasions. Yours is the only one I know of that combines the three operations of Crusher, Sifter, and Mixer, and is free from the wedging, so troublesome in other machines. After six months' trial, mixing nearly 1 cwt. per week, the apparatus is as good as new, and anyone who can turn a handle may be trusted to mix powders, as it is impossible to turn out lumpy and unmixed material with Bracher's machine.

Aberdeen and Hanover Pharmacies, Scarborough, October 2nd, 1885.

White Horse Street, Bear Lane, Leeds, June 1st, 1885.

Yours, &c. (signed), ALFRED JONES.

DEAR SIRS,—The Patent "Desideratum" we had from you 3 mo., 25/85, answers our purpose.

We are, dear sirs, yours respectfully,

GENTLEMEN,—I think it only fair to tell you that I am delighted with the "Desideratum" Mixer you supplied me with last summer. I mix Custard Powders, Tooth Powders, Violet Powders, as well as the Crown Veterinary Powders, for all of which purposes it answers admirably. Wishing you the success you deserve,

I am, Gentlemen, yours very truly,

# Dr. J. COLLIS BROWNE'S CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE.

## IMPORTANT CAUTIONS

From Lord Chancellor SELBORNE, Vice-Chancellor Sir W. PAGE WOOD,  
and the LORDS JUSTICES OF APPEAL.

VICE-CHANCELLOR SIR W. PAGE WOOD, by whom the suit in Chancery was first heard, stated in his judgment that 'Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne, that the whole story of the Defendant Freeman was as deliberately untrue as the falsehood he had deposed to with reference to the use of his Chlorodyne in the Hospital.'

The VICE-CHANCELLOR also stated, 'that Chlorodyne was a fanciful name, and had application been made sooner, the Court would have given Dr. Browne protection.'

LORD CHANCELLOR SELBORNE coincided with the judgment of the Vice-Chancellor upon this point, and stated 'that had application been made at a proper time and place, the Court would have found means to restrain the Defendant from misrepresenting the decision of the Vice-Chancellor.'

LORD JUSTICE JAMES, on appeal, stated in his judgment, 'that the Defendant Freeman had made a deliberate misrepresentation of the decision of Vice-Chancellor Wood.'

It was proved in Court, on affidavit by Mrs. Forbes, of Paris, that the testimonial published in the *Times*, November 14th, 1865, speaking of the great efficacy of Chlorodyne in Cholera, referred to Dr. J. Collis Browne's Chlorodyne, and that she never used any other, that she had written to the Defendant Freeman to that effect; notwithstanding which notice the Defendant publishes the said testimonial as referring to his medicine.

The Editor of the *Medical Times*, in his report on Chlorodyne, January 13th, 1866, gives information that the Chlorodyne referred to was the medicine introduced by a retired Army Medical Officer, which was Dr. J. Collis Browne; still this is published by the Defendant as testimony to his medicine.

Numerous affidavits from eminent Physicians and others were produced in Court, stating that Dr. J. Collis Browne was the inventor of Chlorodyne, and that when prescribing they mean no other.

The Defendant himself publishes that his compound is in effect and composition quite different to any other preparation; nevertheless he assumes the name, testimonials, &c., of Chlorodyne.

Technicalities in law prevent that protection which the public should justly have against such a course of conduct. It is now incumbent on all who purchase Chlorodyne to see that the name, 'Dr. J. Collis Browne's Chlorodyne,' is engraved on the Government Stamp, as it is not sold otherwise. All other compounds under the name of Chlorodyne are spurious. All attempts at analysis have failed; hence the statement that the constituents of Chlorodyne are known is a misrepresentation.

ORIGINAL AND

## FURTHER IMPORTANT NOTICE.

The subjoined list of eminent Firms concur with Vice-Chancellor Sir W. Page Wood's statement in Court, that Dr. Collis Browne was undoubtedly the Inventor of Chlorodyne; and that when Chlorodyne, or the Original Chlorodyne, is ordered, they invariably supply Dr. J. Collis Browne's:—

After these public statements in a Court of Equity, and subsequent confirmation by the trade at large, no Chemist can conscientiously use or sell any other compound for Chlorodyne without committing a breach of faith, unjust to patient and physician. The value of the remedy alone creates the great demand.

## DIRECTIONS FOR USE.

For Baths, ONE TEA-SPONFUL in SIX GALLONS of Water.

For Washing, Cleansing, & Purifying Linen, Blankets, Flannels, Carpets, Paint, Windows, Milk Cans, Boilers, Cooking Utensils, Cisterns, and everything in Domestic use, dissolve ONE TEA-SPONFUL in TWO GALLONS of Water.

For Cleansing, &c., Floors, Ships' Decks, Railway and other Carriages, Omnibuses, Cabs, &c., dissolve ONE TABLE SPOONFUL in THREE GALLONS of Water.

For Extreme Purposes, such as Cleansing Type, Oiled Cotton Waste, Disinfecting Drains, Water-Closets, Urinals, Stables, Railway Trucks, Cattle Trucks, &c., TWO OUNCES to the GALLON may be used.

This is about the maximum effect; beyond this is simply wasting the material.

In all cases Rinse well with Clean Water afterwards.

For Disinfecting Noxious Smells, Dust Bins, Decaying Animal and Vegetable Matter, &c., distribute the Powder freely. Should the weather be very dry sprinkle slightly with water.

If the Powder should get hard or lumpy through damp it will readily dissolve in boiling water.

This new Cleansing and Disinfecting Powder is found to be invaluable for all Domestic purposes, namely, Bathing, Cleansing and Purifying Linen, Blankets, Flannels, Carpets; also for Cleansing Floors, Ships' Decks, Railway and other Carriages, Windows, Paint, Glass, Crockery, Milk Cans, Cooking Utensils, and Cisterns; it prevents corrosion in Kettles, Boilers, Pipes, Chamber Utensils, &c.

**PAM'S POWDER** Cleanses and Disinfects Water-Closets, Drains, Urinals, Stables and Cow-houses, Railway Trucks and Cattle Trucks.

**PAM'S POWDER** is an enemy to Grease and Dirt; is perfectly soluble in hot or cold water; has no smell; does not Rot Linen, or Rust Steel or Metal Goods of any description; will clean Silver and Plated Goods without Whiting or Plate Powder.

**PAM'S POWDER** is also invaluable for Washing all kinds of Animals—Cattle, Sheep, Pigs, or Dogs.

**PAM'S POWDER** is largely used for Washing Printers' Type, Rollers, Blankets, Machinery, &c. One Pound dissolved in a Quart of Boiling Water will make Six Gallons of Lye for all practical purposes of the Printing Office.

By using **PAM'S POWDER** Great Saving in Labour and Money will be effected.

## CERTIFICATE FROM DR. KEMSHEAD.

I hereby certify that I have analysed and practically tested the powder known as "PAM." I find it to be a compound of the best materials for cleansing purposes, and to be perfectly harmless to articles of the most delicate texture, whether of Silk, Wool, or Linen. It also renders the hardest waters soft.

As a Disinfectant, it is Far Superior to and Cheaper than either Chloride of Lime or Carbolic Acid, while it is free from the unpleasant smell and other objectionable properties of those substances.

(Signed) W. B. KEMSHEAD, Ph.D.

Examiner in Chemistry to the College of Preceptors.

Late Professor of Chemistry, Dulwich College.

Dulwich, July 24th, 1885.

## Vide Health, edited by Dr. ANDREW WILSON, F.R.S.E.

**PAM'S CLEANSING AND DISINFECTING POWDER.**—This is likely to prove a highly useful powder for general use under all circumstances in which a cleansing, detergent, and disinfecting material is required. It is free from all smell, is non-poisonous, and yet possesses qualities which render it valuable as an aid to cleanliness, and to the repression of noxious odours. As the result of testing its powers, we have found that this powder does not injure linen or other fabrics, and it can thus be advantageously employed in cleansing articles of delicate make. A solution of this powder poured down drains and closets acts effectively in destroying foul smells and in deodorising decaying materials. Its use may therefore be thoroughly recommended for household purposes. We may add that for the effective cleansing of the woodwork of rooms, &c., after being occupied with cases of infectious disease, "PAM'S POWDER" should be freely used. It is highly useful for such sanitary work. In the kitchen the use of this powder as an ordinary detergent is also to be advocated, and the fact that it does not rust or injuriously affect metal goods is a highly important feature, and one serving to commend it more forcibly to public and domestic favour. For cleaning engines, tricycles, &c., we strongly advise all interested in these machines to try PAM'S Powder.

# A WONDERFUL MEDICINE!

Between thirty and forty years ago a Medicine was introduced to the public and suffering humanity was invited to try the same.

The Proprietor knew from experience that success was certain, but the human breast is so imbued with prejudice, that it forms one of the strongest barriers to break down and the greatest enemy to overcome before any headway can be made towards the mansion of success. Truth has often proved itself to be "stranger than fiction," and it is a fact as solid as truth that

have now become one of the leading Patent Medicines of the present day. From north to south, and from east to west, they are to be found in the homes of the rich and the poor. All classes of society use them, and they are by thousands declared to be

### WORTH A GUINEA A BOX.

For a Weak Stomach, Impaired Digestion, and all Disorders of the Liver, they act like "MAGIC," and a few doses will be found to work wonders on the most important organs in the human machine. They strengthen the whole muscular system, restore the long-lost complexion, bring back the keen edge of appetite, and arouse into action, with the ROSE-BUD of health, the whole physical energy of the human frame. These are "FACTS" admitted by thousands, embracing all classes of Society, and one of the best guarantees to the Nervous and Debilitated is, BEECHAM'S PILLS have the LARGEST SALE of any Patent Medicine in England.

*In South Africa BEECHAM'S PILLS have the largest sale of any Patent Medicine ever introduced into that part of the World.*

All Patent Medicine Dealers abroad will find BEECHAM'S PILLS one of the most profitable and one of the best selling articles in the Market. The demand for them is regular, and all Foreign Houses who are desirous of getting a First-class Patent Medicine are respectfully requested to get BEECHAM'S PILLS from the leading Wholesale Houses in England (as no business will be done with any Foreign House by the Proprietor direct).

**CAUTION.**—The Public are requested to notice that the words "BEECHAM'S PILLS, ST. HELENS," are on the Government Stamp affixed to each Box of the Pills; if not on, they are a Forgery.

Prepared only, and Sold Wholesale and Retail, by the Proprietor,

## THOMAS BEECHAM, ST. HELENS, LANCASHIRE, ENGLAND.

In Boxes, 1s. 1½d. and 2s. 9d. each.

# INGRAM'S IMPROVED HIGGINSON ENEMA AND SYRINGE APPARATUS

(BY ROYAL LETTERS PATENT).

Made without Seams or Ribs by our Patent Process of dipping in a solution of India Rubber, thus adding great strength and durability.

NONE GENUINE UNLESS STAMPED WITH NO. OF PATENT 1474.

CAUTION.—The only  
Enema made without  
Ribs.

All Imitations may be  
detected by the Ribs on the  
Surface, and are always  
liable to split.

WARRANTED NOT TO SPLIT.

A.—Metal Pin Valve.

INGRAM'S IMPROVED PATENT SEAMLESS ENEMA is perfectly smooth on the surface, will not become hard or sticky, will not leak, and will not admit air while injecting or refilling. Specially prepared to resist the heat of tropical countries.

The great superiority of INGRAM'S IMPROVED PATENT SEAMLESS ENEMA over all others has given rise to VARIOUS IMITATIONS, and it has become imperative that the Patentees should, in order to PREVENT DECEPTION, explain the PROCESS OF MANUFACTURE OF THEIR ENEMA and the MODE OF MANUFACTURE OF IMITATIONS thereof, as they have UNDENIABLE PROOF that INFERIOR ENEMAS are positively BEING SOLD as their "ADVERTISED" PATENT SEAMLESS ENEMA.

INGRAM'S IMPROVED PATENT SEAMLESS ENEMA is made by a NEW PATENT PROCESS, viz. : By repeated dipping in a solution of India Rubber until the required substance is attained. This process adds greatly to its STRENGTH and DURABILITY, and, at the same time, dispenses WITH ALL SEAMS, which, as is well known, are weak points in an Enema. This improved mode of manufacture (the result of long study and experience) enables the Patentees to produce a PERFECT ENEMA WITHOUT SEAMS, thus overcoming the great fault to be found in ALL other Enemas, viz. : SPLITTING AND LEAKING, which has always been a source of trouble.

INGRAM'S IMPROVED PATENT SEAMLESS ENEMA is fitted with IMPROVED VALVES, which prevent the admission of air with the fluid and CAN at any time BE REPAIRED, if necessary.

**CAUTION.**—Imitations of INGRAM'S IMPROVED PATENT SEAMLESS ENEMA are made of several pieces of Sheet India Rubber, which are cemented together and shaped in a mould, THUS PRODUCING RIBS ON THE SURFACE, and ENEMAS SO MANUFACTURED ARE ALWAYS LIABLE TO SPLIT AND LEAK AT THE SEAMS, AND THUS TO BECOME QUITE USELESS.

INGRAM'S IMPROVED PATENT SEAMLESS ENEMA may be distinguished from ALL IMITATIONS by its ENTIRE FREEDOM FROM RIBS OF ANY DESCRIPTION on its surface, and by having an IMPROVED METAL PIN VALVE at the suction end A ; and it is acknowledged to be the ONLY PERFECT ENEMA OBTAINABLE.

Patented in England, No. 1474, April 12, 1878; in France, No. 126,909, October 11, 1878; and in America, No. 212,939, March 4, 1879.

To be obtained of all Surgical Instrument Makers, Druggists' Sundriesmen, Chemists and Druggists, in the three following qualities:—

No. 1a. Highly Polished, in Red, Green, Blue, Black, or White.

No. 1b. Unpolished, in Red, Green, Blue, Black, or White.

No. 2. Unpolished, in Drab only.

Favourably noticed in "British Medical Journal," December 13, 1879; in the "Lancet," January 3, 1880; and in "British Medical Journal," September 30, 1882.

## THE NEWEST AND MOST EFFICIENT TABLE FILTER.

The water ascends in the direction indicated by the arrows, and each time the top glass is filled the air under the porcelain cover is forced through the Silicated Carbon Block, which is thus automatically aerated.

By simply removing the glass peg the Silicated Carbon Block is at once released for cleansing or renewal.

The Carbon Blocks are efficiently cleansed by boiling, and extra blocks can be supplied with each Filter when desired.
